Pipeline Safety Indicator Forum

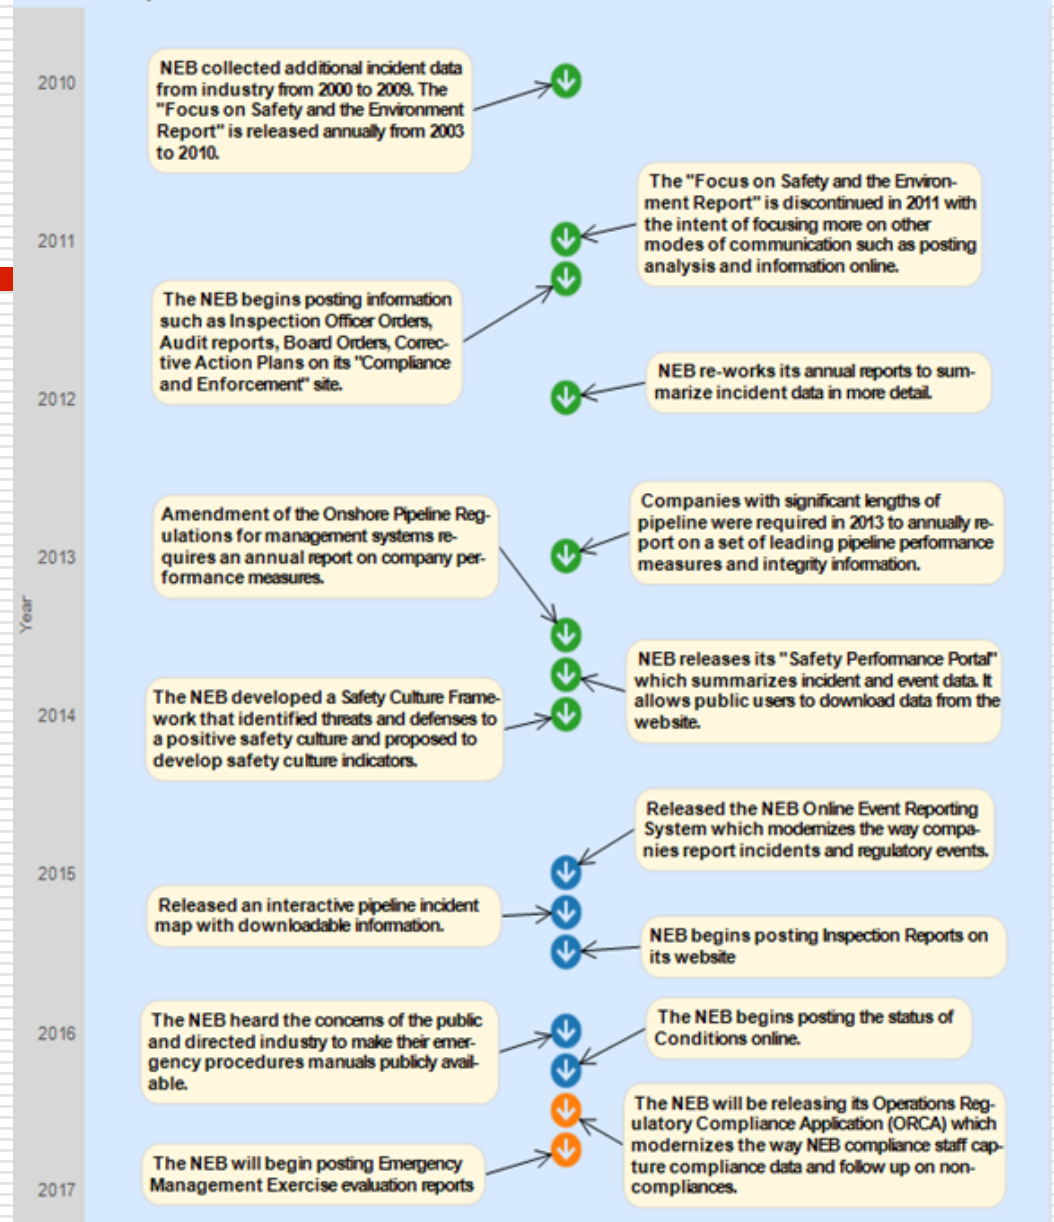

19 May 2016

Limitations and Problems with Existing Data Collection

Information

- Initiatives for Continual Improvement
- Operate Beyond Standards
- Management Systems to Manage Risk

Timeline of Pipeline Performance Information

Data

□ Regulator Data Challenges

- Pipeline Types
- Facilities (surface equipment) versus Pipe-Body Incidents
- Volume Thresholds
- Data Normalization
- Data Quality

Other Challenges

- Harmonizing Regulators
 - Terminology and Definitions
 - Reporting
- Causes of Failures
- Need for Data Refinement

Additional Information
