How we came into being

“... there’s going to be a Trust that’s going to be funded as part of today’s sentencing. With $4,000,000 ... they’ve nowhere near the lobbying potential of the oil industry. It’s not even David and Goliath. It’s more like Bambi and Godzilla. You’ve heard people today that are going to spend their lives trying to make this right, and they should be listened to. No industry polices itself very well... you need outside people, and these are going to be the people so pay attention to.”

The Honorable Barbara Rothstein
United States District Judge
At Olympic Pipe Line Co Sentencing
