Kidder Morgan

May be more. Just don't remember.

Do you think the information was helpful?

	Yes	No	Don't really remember it well enough to say	Responses
All Data	9 (64%)	0 (0%)	5 (36%)	14

Can you very briefly describe what you think the main goals of sending you the information was?

Text Responses

General information

I think it was to let me know of the safety features, upgrades, and other modernizing efforts they made.

Public Relations

Brand recognition

To make us aware of the different signage and levels of concern should there ever be a problem with a pipeline in our area.

To know emergency response process

alert to where pipelines were and a training opportunity on pipeline safety and emergency response

Pipeline safety

That we should be cognizant of the fact the pipe lines are there and we need to be careful around them.

Basic info about call before you dig and what to do if something is wrong

awareness of pipelines in county

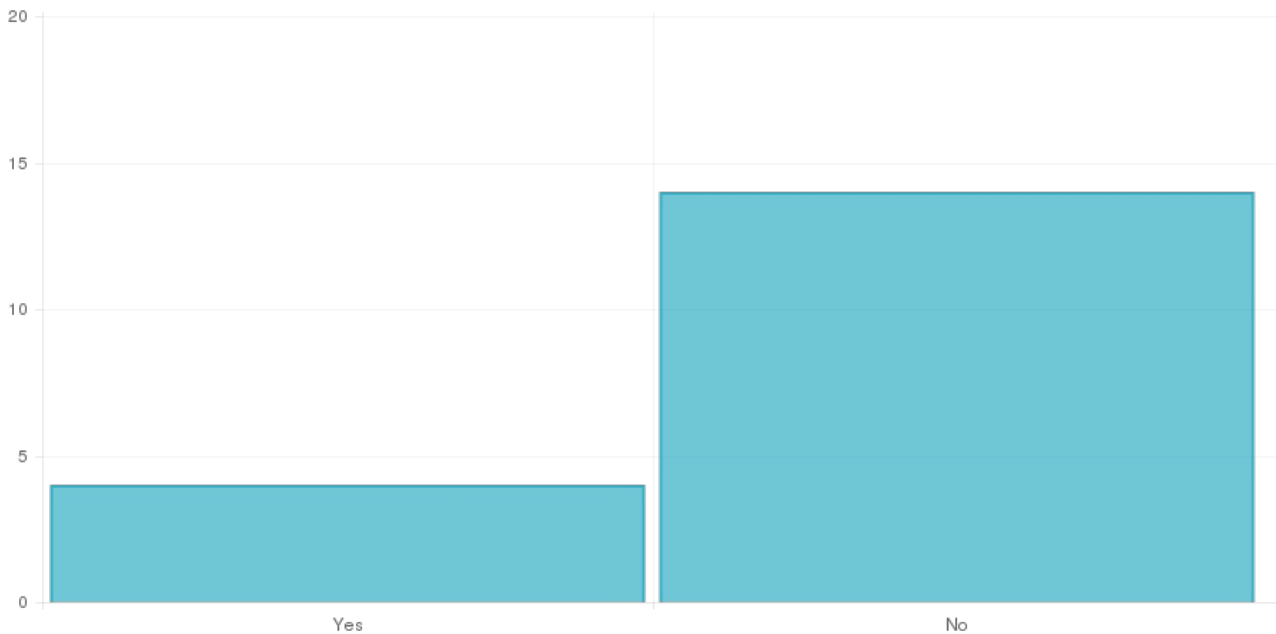

Letting us know what to do if a leak appears. How to make people aware of where the pipelines are located.

In my role as Executive, companies want me to be informed of the work they are doing in the community. Information is helpful as we formulate policy, and as we speak to the broader community related to economic development.

Safety

In your time as an elected official have you ever had any pipeline safety issues arise that came to your council/commission for discussion?

	Yes	No	Responses
All Data	4 (22%)	14 (78%)	18

If so can you briefly describe what those pipeline safety issues were?

Text Responses

Part of discussion about fossil fuel transportation

There has been a little discussion about a new proposed pipeline to Vancouver Island

We passed rules regarding hard to evacuate buildings near big pipelines

n/a

n/a

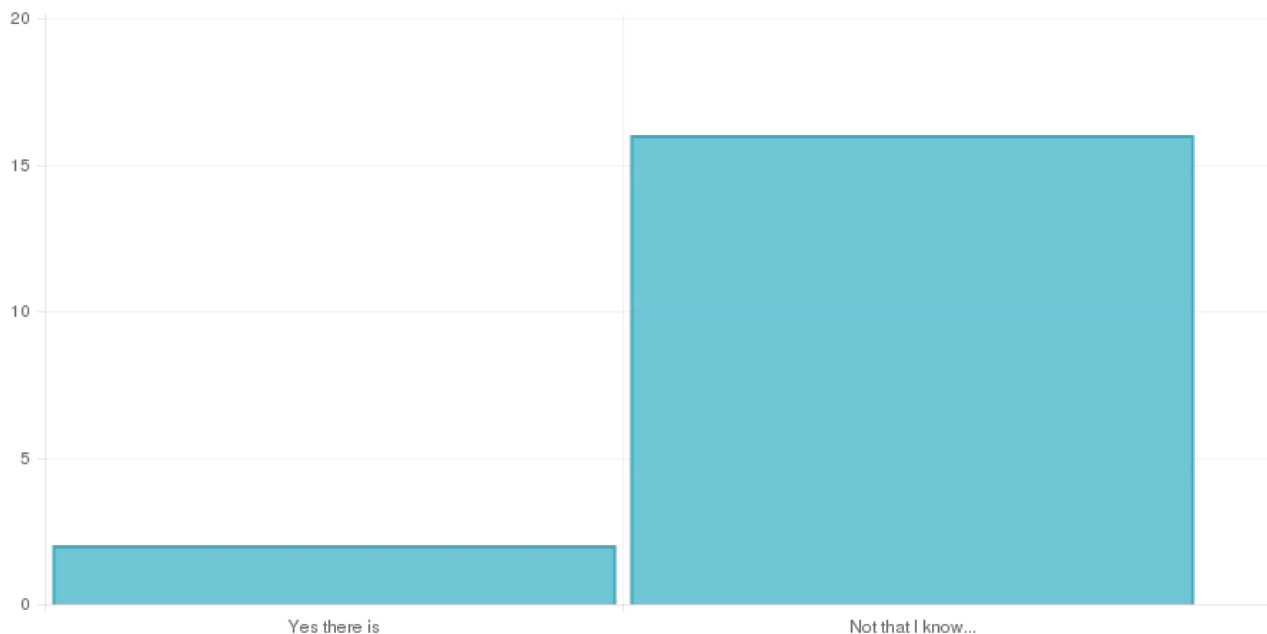

n/a

We changed our building code to better inform property owners near pipelines.

Pipeline concern probably best describes discussion. Our community is on high alert related to pipelines, due to the tragic event a few years ago related to pipeline explosion.

Do you know if there is anything in your local code that is meant to increase pipeline safety in your jurisdiction?

	Yes there is	Not that I know of	Responses
All Data	2 (11%)	16 (89%)	18

If so please describe briefly those sections of your local code aimed at pipeline safety

Text Responses

We passed rules regarding setbacks for hard to evacuate buildings near big pipelines

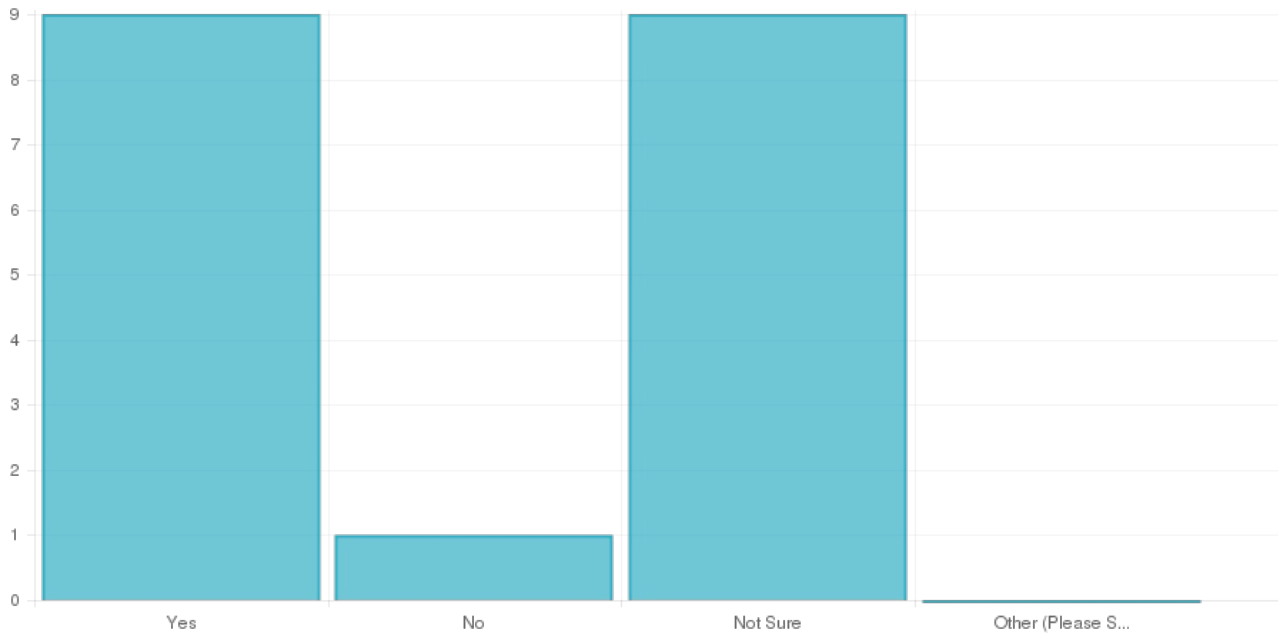

Notice must be given to pipe line companies if work is going to be done next to the pipeline.

Property owners near pipelines have a notices on the title about pipeline near them.

Construction restrictions in pipeline easements.

Have your first responders or emergency planning personnel developed an emergency response plan specific to pipeline incidents, or has a pipeline company provided its emergency response plan to them?

	Yes	No	Not Sure	Other (Please Specify)	Responses
All Data	9 (50%)	1 (6%)	9 (50%)	0 (0%)	18

Text Responses

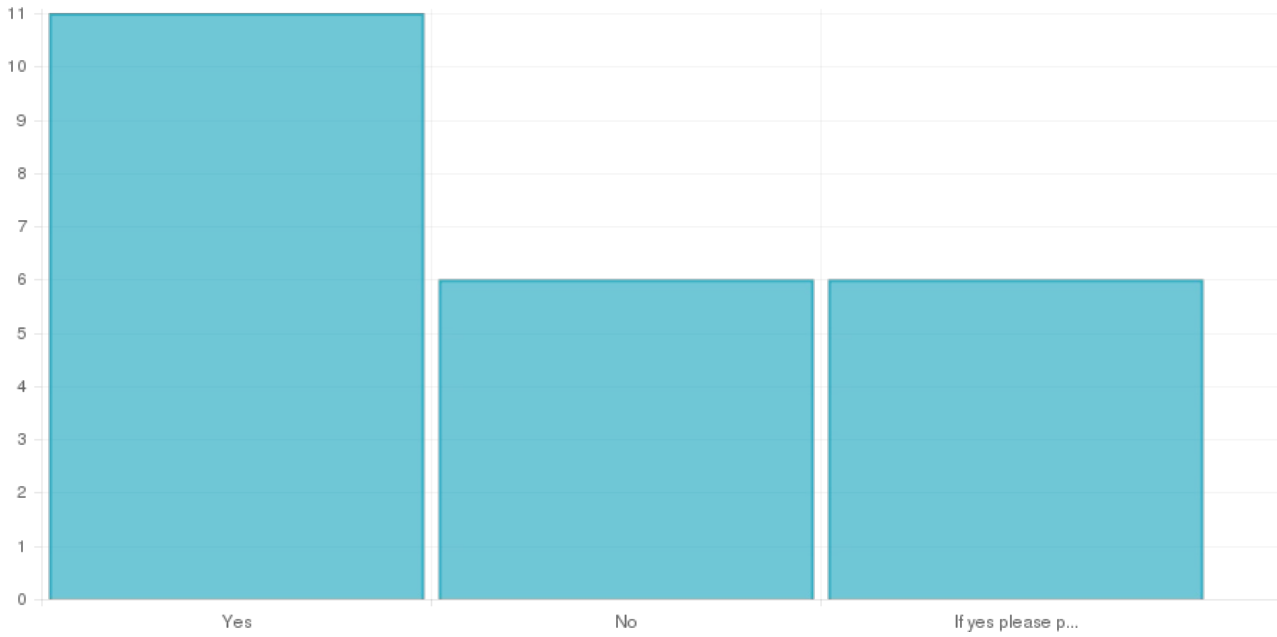

During your time in office has your council/commission ever received a briefing on the safety of the pipelines in your jurisdiction and the ways local government can help ensure that safety?

	Yes	No	Responses
All Data	4 (22%)	14 (78%)	18

Would you be interested in such a briefing (30 minutes or less)?

	Yes	No	If yes please provide jurisdiction	Responses
All Data	11 (65%)	6 (35%)	6 (35%)	17

All areas of Grays Harbor county with specific authority over Unincorporated Grays Harbor County

Whatcom County Washington. Carl Weimer is the requested presenter.

Is there any information about the pipelines in your jurisdiction you are interested in but don't know where to find? Check all that apply

	Maps of pipelines	Information about the materials the pipelines carry	Who regulates and inspects the pipelines	Specifics of the pipeline (size, pressure, wall thickness, year built, etc)	Land use setback requirements	Call Before You Dig (811) system	Purpose of the pipeline	Past safety performance of the pipeline	When the pipeline was last inspected	How to contact the pipeline operator	Other (Please Specify)	Responses
All Data	7 (58%)	5 (42%)	5 (42%)	6 (50%)	3 (25%)	2 (17%)	4 (33%)	8 (67%)	7 (58%)	3 (25%)	2 (17%)	12

Text Responses

Emergency response and ability to fund the liability in the event of an leak
Funding for any local needs.

Please tell us if there is anything else about pipeline safety you would like to share or have questions about?

Text Responses

pipelines are highly regulated by the state and federal govt. we sure don't need the locals piling on.

If you would like to receive a copy of our report on pipeline safety in Washington State once it is completed in 2018 please provide your name and email address.
